The application has been amended as follows in order to correct minor antecedent and spelling errors in the claims.

The following is an examiner's statement of reasons for allowance:

The prior art fails to anticipate or properly render obvious a fuel feed pipe including a coupling therein including, in order, a low temperature resisting seal and an ozone resisting seal, spaced from an open inserted end of the male half of the coupling to seal the coupling halves.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
